

DATE: April 23, 2020
TO: Allegan County Chairman and Board of Commissioners
FROM: Denise Medemar, Allegan County Drain Commissioner
RE: 2019 Annual Report

I am pleased to present to you the 2019 Annual Report for the work performed by the Allegan County Drain Commissioner and employees. The Drain Office, as a whole, performs a wide spectrum of duties when it comes to drain maintenance or petitioned projects on drains or lake level projects. A majority of the maintenance projects begin with a telephone call to the Drain Office from a citizen or township with a concern that involves an issue with water. Michigan has recently seen how the frequency and intensity of precipitation has impacted many areas in the State. Annual water totals have increased, interior lakes and streams are seeing greater flows and impact, and the Great Lakes are experiencing record levels. Groundwater is high, causing impact to infrastructure. As a result the Drain Office responded to increased reports from citizens and townships regarding high water levels. Due to the large amount of drains that Allegan County has, our maintenance is more reactive than proactive.

I have attached a few highlights of our 2019 activity:

- Maintenance and Petitioned Projects Completed in 2019
- Projects Active in 2019
- Intercounty Drain Projects Active in 2019
- Rodgers Intercounty Drain
- Wilson Intercounty Drain

Most of the projects that are active in 2019 are in the process of obtaining easements or in the engineering design phase. On August 7, 2019, the Rogers Intracounty Drain and the Wilson Intracounty Drain became Intercounty Drains with Kent County for the Rogers Intercounty Drain and Barry County for the Wilson Intercounty Drain.

Maintenance & Petitioned Projects Completed in 2019

- ▶ Brainard & Pease-Otsego Township
- ▶ East Fillmore-Fillmore Township
- ▶ Elm Creek-Casco Township
- ▶ Glenn Shores-Casco and Ganges Townships
- ▶ Selkirk Lane-Martin and Wayland Townships

Projects

Active in 2019

- ▶ Baughman Drain-Otsego Township, Otsego City
- ▶ Big Lake Drain-Watson Township
- ▶ Buskirk Drain-Hopkins and Wayland Townships
- ▶ Casco Drain -Casco Township
- ▶ Neerken's Plat-Fillmore Township
- ▶ Secluded Acres Drain-Salem Township
- ▶ Severens Drain-Clyde Township
- ▶ Trowbridge-Cheshire Drain-Allegan, Cheshire, Trowbridge and Valley Townships

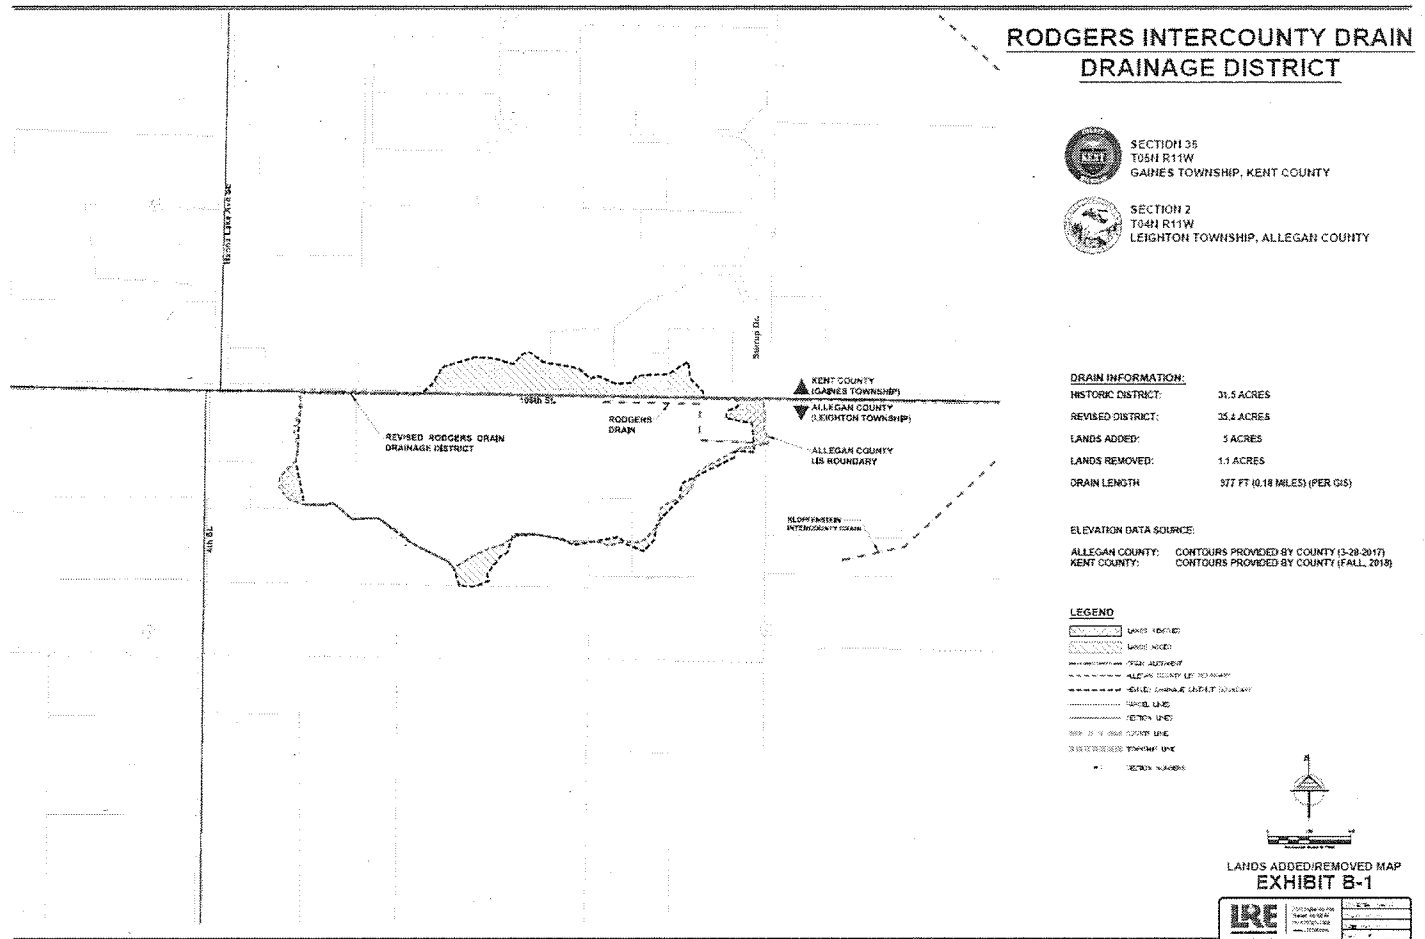

Intercounty Drain Projects

Active in 2019

- Base Line Intercounty – Van Buren County
- Baseline Lake Intercounty-Van Buren County
- Black Creek Intercounty – Kent and Ottawa Counties
- Boyd Intercounty-Ottawa County
- Brush Creek Intercounty – Van Buren County
- Byron-Dorr Intercounty – Kent County
- Carpenter Intercounty – Van Buren County
- Cuddy Intercounty – Barry County
- Deal Intercounty – Barry County
- Duncan Lake Intercounty – Barry and Kent Counties
- Gun River Intercounty – Barry County
- Hubbard Intercounty-Kalamazoo County
- Kelly Lake Intercounty – Ottawa County
- Klopfenstein Intercounty-Kent County
- Lane & Griffin Intercounty-Van Buren County
- Maplewood Intercounty-Ottawa County
- Orangeville Creek-Barry County
- Otsego-Alamo Intercounty – Kalamazoo County
- Ottogan Intercounty – Ottawa County
- Reno Intercounty—Barry County
- Rodgers Intercounty-Kent County
- Saddler Intercounty—Barry County
- Sandy Beach Intercounty – Barry County
- Tulip Intercounty – Ottawa County
- Virginia Park Intercount-Ottawa County
- Wilson Intercounty-Barry County
- Winters Intercounty-Kent County

Rodgers Intercounty Drain

2019 ANNUAL REPORT

Cuddy Intercounty Drain

Wayland Township and Barry County

**TO THE HONORABLE BOARD OF COMMISSIONERS OF THE
COUNTY OF ALLEGAN:**

In compliance with the provision of Section 280.31 of Chapter II, of Act No. 40, of Public Acts of 1956, as amended, I have the honor as the elected Drain Commissioner of said County of Allegan, to submit the 2019 Annual Report covering the period from the 1st day of January, A.D. 2019, to the 31st day of December, A.D. 2019.

2019 Drain Commissioner and Office Staff:

Denise Medemar, Drain Commissioner
Carolynn Parnell, Chief Deputy
Joel Morgan, Deputy Engineer
Brent Scholten, Maintenance Supervisor/Deputy
Clayton Smith, Drain Maintenance
Catherine Boysen, Secretary

2019 ANNUAL REPORT

TABLE OF CONTENTS

The Drain Office

- Drain Maintenance Crew
- Board of Public Works
- Inland Lake Level Projects
- Inland Lake Improvement Boards
- General Developments
- Mobile Home Parks
- Site Condominiums
- Subdivision Developments
- MS4 Permit
- SAW Grant

Certification

ALLEGAN COUNTY DRAIN COMMISSIONER
County Courthouse

Telephone: 269.673.0440

Fax: 269.673.0396

Email: dmedemar@allegancounty.org

The Allegan County Drain Commissioner is charged with diverse responsibilities as regulated by several public acts:

THE DRAIN OFFICE

The Michigan Drain Code (Act 40 of Public Acts of 1956, as amended) is the law that governs the responsibilities of the Drain Commissioner. The Drain Commissioner, Denise Medemar, and staff are responsible for the operation and maintenance of more than 820 established county drains and storm water management systems in Allegan County. This Act requires strict adherence in regard to mailings, meetings, and public notification.

In 2019, 255 drains experienced activity, ranging from establishing new drains to inspections and routine maintenance of existing drains. Of those 255 drains, 117 drainage districts were assessed. The total amount assessed, \$1,697,080.98, was spread to 32 of the 35 Allegan County municipalities, the County at large and for road benefit, the Michigan Department of Transportation for State Highway benefit, and the railway systems that traverse our County.

The Drain Office provides Payoff Requests for Drain Special Assessments for parcel owners and title companies as well as providing assistance throughout the county on drains and flood complaints. Any flooding situations should be immediately reported to the Drain Office at 269-673-0440. Requests for drain maintenance or improvements should also be directed to this number.

DRAIN MAINTENANCE CREW

The Drain Maintenance Crew consists of a Maintenance Supervisor and a Drain Maintenance worker. The Drain Maintenance worker position was vacant from January to June of 2019. Maintenance activities by the maintenance crew include ditch bottom cleaning, tree clearing, debris removal, beaver dam removal, erosion repair, herbicide treatment, and repair of broken pipe on a tile drain. Maintenance is accomplished by using hand tools and small power equipment. In 2019, this form of maintenance was completed on 68 drains.

The Earned Release Program (ERP) and Detail Enabling Better Transition to Society (DEBTS) were initiated by the Sheriff's Department as measures to help address jail overcrowding. In 2019, the Drain Maintenance Crew utilized the DEBTS program and cleaned 17 drains and also provided Storm Inspections. Contractors were hired to clean 51 drains that required larger equipment. Approximately 128 drains in Allegan County and the five

adjacent counties of Barry, Kalamazoo, Kent, Ottawa, and Van Buren were inspected or maintained.

BOARD OF PUBLIC WORKS

The Allegan County Board of Public Works was established and organized under Act 185 of 1957, as amended. In Allegan County the Board of Public Works has seven members that include the Drain Commissioner and six other members appointed by the County Board of Commissioners. The Drain Commissioner is the elected Secretary for the Board of Public Works with Drain Office staff providing administrative support.

The majority of our county's municipal water supply and/or sewage collection and disposal systems were constructed and/or improved using the provisions allowed under Act 185. By utilizing the County's bond rating, a local municipality receives more favorable and affordable financing for these types of public works projects. The County of Allegan/Board of Public Works is the owner of record for the project until the incurred debt is paid in full.

In 2019 there were five active debt service accounts that involved seven municipalities. Debt Service payments are billed to and paid biannually by the affected municipalities. A total of \$991,343.51 in principal, interest, and fees was collected and paid for the year 2019.

INLAND LAKE LEVEL PROJECTS

Part 307 of the Natural Resources and Environmental Protection Act, (Act 451 of 1994), provides for the determination, establishment, and maintenance of the normal height and level of inland lakes in Michigan. Part 307 also requires inspection every three years of all lake level control structures on inland lakes that have normal levels established under this Act. Inspections must be performed by a licensed professional engineer and a copy of the inspection report must be submitted to the Michigan Department of Environment, Great Lakes, and Energy (EGLE).

The County Board of Commissioners delegates administrative duties to the Drain Commissioner to oversee lake level projects and required inspections. Allegan County has seven established lake levels: Base Line Lake, Dumont Lake, Miner Lake, Monterey Lake, Osterhout Lake, Pine Creek Lake, and Pine Lake with Barry County. In 2019, a Dam Safety Inspected was conducted on the Monterey Lake dam.

INLAND LAKE IMPROVEMENT BOARDS

Part 309 of the Natural Resources and Environmental Protection Act, (Act 451 of 1994), provides for the improvement of certain inland lakes; authorizes the dredging and removal of undesirable materials from lakes; authorizes the payment of improvement costs and related expenses through special assessment to properties within an established district; and specifies the county drain commissioner, or his/her designee, to serve as a member of the lake board.

Allegan County has an established lake improvement board for Gun Lake, Hutchins Lake, Lower Scott Lake and Miner Lake. In Allegan County, lake improvement boards have been established primarily for aquatic plant control and abatement of water quality issues.

GENERAL DEVELOPMENTS

There were 20 General Development plans submitted for Storm Water Management Plan review and approval, at the request of various Townships, as follows:

Metallurgical High Vacuum, Clyde Twp	Hawkeye Self Storage, Hamilton
135 th Avenue Storage, Hamilton	Fennville Schools, Fennville
Teddy's Transport, Holland	Great Lakes Heavy Haul, Leighton Twp
Fennville Storage, Fennville	Hamilton Steel Fabrications, Hamilton
Nifty Pine Drive, Salem Twp	Diamond Springs Steel, Overisel Twp
Fennville District Library, Fennville	Cultivate Church, Hamilton
1215 142 nd Ave LLC, Dorr Twp	Burgess Concrete, Dorr Twp
Dorr Veterinary Clinic, Dorr Twp	Fields Campground, Casco Twp
TMS Storage, Dorr Twp	South Holland Rentals, Holland
Trillium Woods, Dorr Twp	Lot 6 Moline Industrial Park, Leighton Twp

MOBILE HOME PARKS

Public Act 419 of 1976, the Mobile Home Commission Act, requires that a person who desires to develop a mobile home park shall submit a preliminary plan to the appropriate municipality, local health department, county road commission, and county drain commissioner for preliminary approval. The Drain Commissioner shall review and may approve outlet drainage to ensure that development of the proposed mobile home park does not cause flooding offsite. In 2019, The Drain Commissioner received one submission for review and approval for Hidden Creek Community Phase 3 in Fillmore Township and Sunrise Condominiums in Fillmore Township.

SITE CONDOMINIUMS

Act 59 of 1978, the Condominium Act, requires that written notice of intent to construct a condominium project be provided to the appropriate city, village, township, or county, the County Road Commission and the County Drain Commissioner. The Drain Commissioner received three storm water management reviews for 2019:

3620 30th Street, Salem Twp
West Wind Village Phase 2, Laketown Twp
Cottages of Kelly Creek Condominiums, Laketown Twp

SUBDIVISION DEVELOPMENT

Public Act 288 of 1967, as amended, the Land Division Act, provides the main regulatory mechanism to ensure that subdivisions meet the standards set by local governmental officials.

The role of the Drain Commissioner under this Act is to ensure that adequate storm water facilities are designed, constructed, and maintained to ensure that landowners within the subdivision are protected from flooding and that the development does not cause an increase in flooding outside of the subdivision.

The Drain Commissioner requires that the plat proprietor/developer provide for adequate storm water facilities. Section 433 of the Michigan Drain Code provides for the construction of a drainage system by the developer to serve a newly established plat and the subsequent establishment of a drainage district in relation to the storm water facility. The drainage system is constructed according to specifications and standards set by the Drain Commissioner. Upon completion, the system can then be remanded to the Drain Commissioner as an established county drain using a formal document known as a 433 Agreement. In 2019, no plat developments were submitted.

MS4 PERMIT

In 2016, the Allegan County Drain Commissioner was required to apply for an NPDES Jurisdictional Permit for storm water discharges from a regulated municipal separate storm sewer system (MS4). This permit required the creation of a Storm Water Management Plan composed of six major sections: Public Education Program, Public Involvement and Participation, Illicit Discharge Elimination Program, Post Construction Storm Water Management Program, Construction Storm Water Runoff Control, and Pollution Prevention/Good Housekeeping Standards.

From 2017 to 2019 the Allegan County Drain Commissioner's Office worked with the Macatawa Area Coordinating Council, in coordination with other County Departments, to review and update plan components per MDEQ's initial comments. In 2019, the MS4 permit was submitted to EGLE. As of the end of 2019, the permit had not been issued.

SAW GRANT

In December 2017, the Drain Office received notification that the SAW Grant offered through the Michigan Department of Environmental Quality, which we initially submitted in 2013 with Board of Commissioner approval on Thursday, November 14, 2013, was approved. The amount is \$120,000 which the grant will reimburse ninety percent (\$108,000) with a ten percent local match (\$12,000) which has an end date of December 1, 2020. The original application provided funding to clean and televise six drains, provide GIS hardware/software training, and records scanning.
