Streptococcus pneumoniae, invasive	1	3	1	3	-	1	-	4

NOTE: The data in the monthly summary reports are provisional, based on current reports in the Michigan Disease Surveillance System (MDSS) made available to local public health departments. The MDSS is a continually active system so counts of diseases are constantly changing as cases are investigated, confirmed as cases, or ruled out as not meeting case definition. Each monthly surveillance report reflects this constant activity as the numbers may slightly fluctuate each month. Therefore, it should be kept in mind that numbers in the monthly disease reports are not final and should be used only to generally monitor trends over time. Probable and confirmed cases are included in this monthly report.

Vectorborne Disease:

Disease	Cases Reported in Last 4 Months				Cases Reported Through February**			
	Nov-23	Dec-23	Jan-24	Feb-24	2021	2022	2023	2024
Eastern Equine Encephalitis*	-	-	-	-	-	-	-	-
Lyme Disease	1	-	-	1	1	3	-	1
