Total Confirmed Cases

24,638

Total COVID-19 Deaths

1,487

Allegan County (4/13/20 1:30P)

- ▶ Total PUI: 259
- ▶ Negative for COVID-19: 221
- ▶ Positive for COVID-19: 23
- ▶ Total tests pending: 7
- ▶ Tests not completed: 6
- ▶ Hospitalized PUI: 7
- ▶ Total Monitoring: 198
- ▶ Currently Monitoring: 59

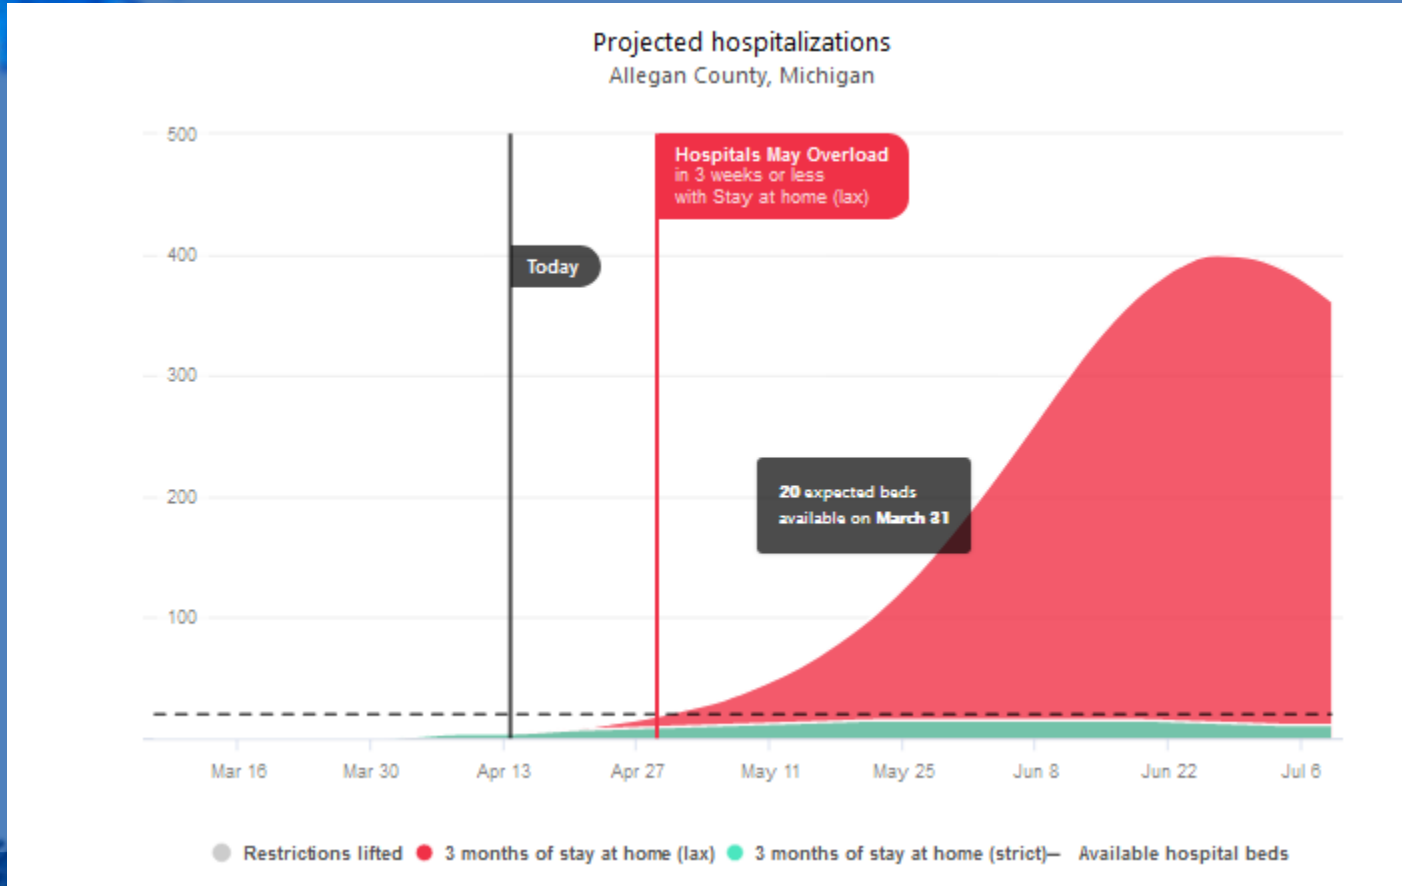

Homemade mask use

- ▶ A few things to note:
- ▶ Please clean prior to any use.
- ▶ Some have a wire inside to ensure proper fitting around the nose.
- ▶ Some have openings where you can put an additional filter, such as a coffee filter or vacuum bag.
- ▶ When donning (putting on the mask) try to touch the mask as little as possible. Facemask should be extended under chin. Both your mouth and nose should be protected. Do not wear facemask under your chin or store in pocket between uses. Mask ties should be secured on crown of head (top tie) and base of neck (bottom tie). If mask has loops, hook them appropriately around your ears.
- ▶ When doffing (removing mask) Carefully untie (or unhook from the ears) and pull away from face without touching the front. Be careful not to touch eyes, nose, and mouth when removing your face covering and wash hands immediately after removing.
- ▶ Wash appropriately between each use. You can use a washing machine or hand wash.

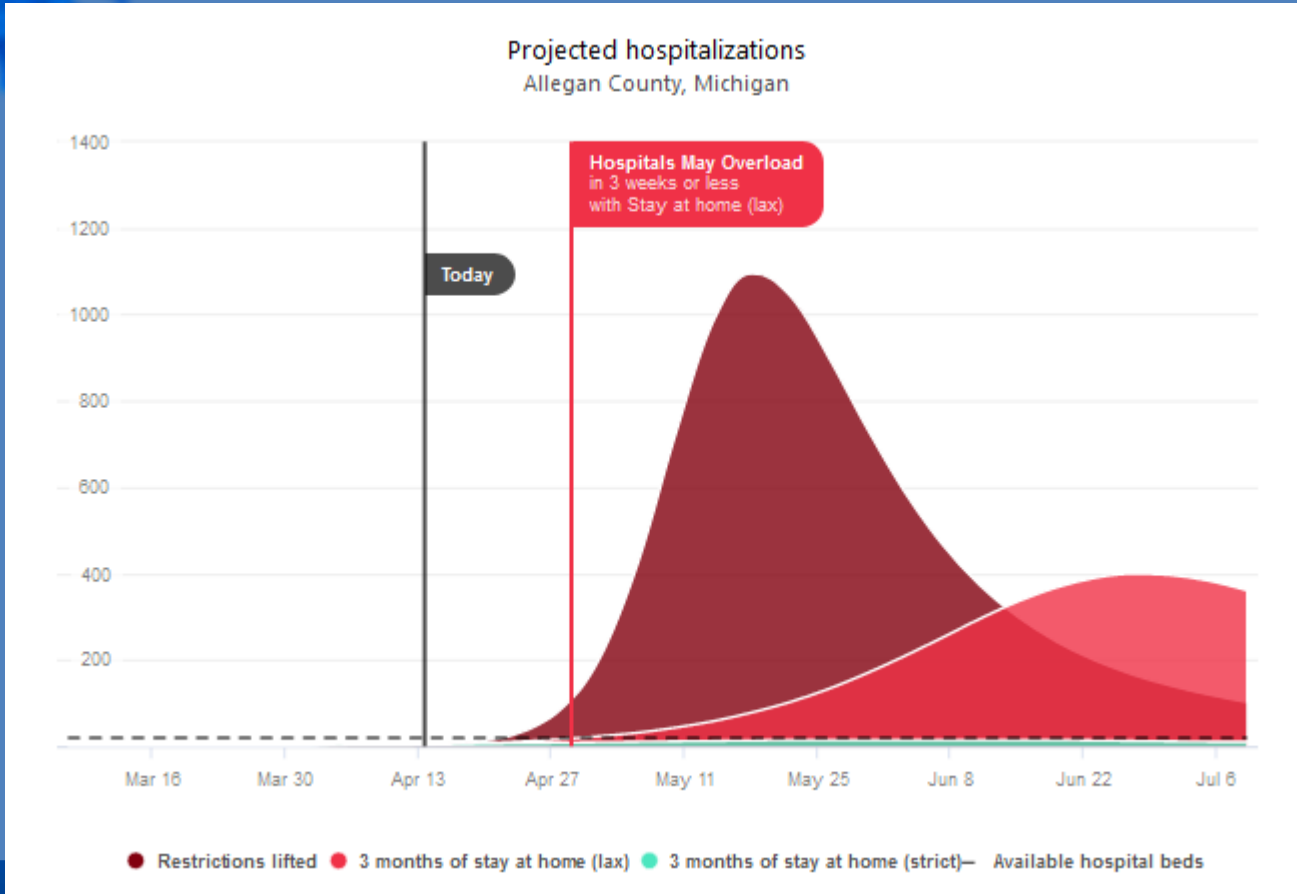

New Drive Up Testing Sites near Allegan County

- ▶ On 4/11/20, the State of Michigan released expansion of testing centers in the next week. Locations near Allegan County that will open:
 - ▶ Battle Creek: Grace Health, 181 W. Emmett St., 269-441-3463.

ACHD Strategies this week

- ▶ Probable positives definition
- ▶ Recovered case definition
- ▶ COVID-19 Incident Data dashboard development
- ▶ Qualtrics case investigation implementation
- ▶ Identifying Employment COVID-19 clusters

Executive Order 2020-42

▶ Temporary requirement to suspend activities that are not necessary to sustain or protect life—Rescission of Executive Order 2020-21

▶ The measures put in place by Executive Order 2020-21 have been effective, but this virus is both aggressive and persistent: on April 8, 2020, Michigan reported 20,346 confirmed cases of COVID-19 and 959 deaths from it. To win this fight, and to protect the health and safety of our state and each other, we must be just as aggressive and persistent. Though we have all made sacrifices, we must be steadfast. Accordingly, with this order, I find it reasonable and necessary to reaffirm the measures set forth in Executive Order 2020-21, clarify them, and extend their duration to April 30, 2020. This order takes effect on April 9, 2020 at 11:59 pm. When this order takes effect, Executive Order 2020-21 is rescinded.

Executive Order 2020-41

- ▶ Encouraging the use of electronic signatures and remote notarization, witnessing, and visitation during the COVID-19 pandemic
- ▶ It is reasonable and necessary to provide limited and temporary relief from certain rules and requirements so as to enable and encourage the use of electronic signatures, remote notarizations, remote witness attestations and acknowledgments, and remote visitations. This will help ensure that necessary transactions and interactions may continue to occur during this time of crisis without unduly compromising the health and safety of this state and its residents.
- ▶ Review full order [here](#)

Executive Order 2020-40

- ▶ Temporary relief from certain credentialing requirements for motor carriers transporting essential supplies, equipment, and persons
- ▶ It is reasonable and necessary to provide limited and temporary relief from certain credentialing requirements for motor carriers that are providing such critical assistance to this state and its residents.
- ▶ Review full order [here](#)

Executive Order 2020-39

- ▶ Temporary relief from certain restrictions and requirements governing the provision of emergency medical services
- ▶ Given the steep increase in individuals requiring emergency medical treatment and the relative scarcity of medical equipment, personnel, and resources, it is necessary and appropriate to provide limited and temporary relief from certain licensing requirements and regulations pertaining to emergency medical services, so that emergency medical service providers can more efficiently and effectively protect the health and safety of this state and its residents during this time of crisis.

Attorney General: Know your Rights

Prevention

HEALTH
Department

- ▶ Currently, there is no vaccine for COVID-19
- ▶ The best way to prevent infection is to avoid exposure to the virus
- ▶ Take everyday preventive actions to help prevent the spread of respiratory viruses
 - ▶ [FDA approved list of cleaning agents](#)
- ▶ Wash your hands often
- ▶ Social distancing
- ▶ Shelter at home if you are non-essential
- ▶ Consider wearing a homemade mask when out in public
