

Commercial Curbside Recycling Information.

Allegan County Resource Recovery has received many inquiries about how businesses can participate in the Curbside Recycling Programs. The recycling coordinator has communicated with the following vendors and has developed a process for businesses to participate by **subscription**. This will allow businesses to receive a 96 gallon recycling cart(s) and service on the same pick-up day as the residential curbside programs:

Process to sign-up:

- 1: Please refer to the http://www.allegancounty.org/docs/EH/Recycling/EH_Recycling_Map.pdf to determine if the business is located in a curbside recycling program area and which vendor provides this service.
- 2: Contact the appropriate vendor and inform that your business is interested in a commercial curbside recycling account (There will be a monthly fee established by Vendor.).
