## BOARD OF COMMISSIONERS OF THE COUNTY OF ALLEGAN

**FINANCE-APPROVE 2020 REMONUMENTATION PLAN**

**WHEREAS**, the current County Remonumentation Plan was adopted by the Board back in 1992; and

**WHEREAS**, County Surveyor has submitted an updated plan for Board review.

**THEREFORE BE IT RESOLVED**, that the Board of Commissioners approves the recommendation of the County Surveyor to revised 2020 Remonumentation Plan as presented; and

**BE IT FINALLY RESOLVED** that the Board Chairperson and/or the County Administrator are authorized to sign the necessary documents on behalf of the County and that the Executive Director of Finance is authorized to make any necessary budget adjustment to complete this action.

DRAFT

# **2020 REVISED COUNTY PLAN**

Monumentation & Remonumentation Plan

For Allegan County, Michigan

Prepared for the implementation of 1990 PA 345 as amended, MCL 54.261-279

Revised and Approved by the Board of County Commissioners:

---

, Chairperson

---

Date

FF	County Revisions to the Remonumentation Plan	56

## **INTRODUCTION – THE REASON FOR THIS REVISION**

The State Survey and Remonumentation Act, 1990 PA 345, was revised on June 12, 2014 by 2014 PA 166. This revision, among other things, reinstated the State Survey and Remonumentation Commission and required them in Section 8 to promulgate the rules and guide the counties to formalize a REVISED COUNTY PLAN. Issues identified in the law and by the commission to be specifically addressed are:

- A. A plan to remonument all of the original Public Land Survey corners, property controlling corners and protracted corners. The plan must also list other corners to be included or excluded. MCL 54.268 (2)(a)&(c). If an explicit plan is included in a previous Plan, then outline any modifications that may have occurred since the last update.
- B. A perpetual monument maintenance plan. MCL 54.268 (2)(d) The Land Corner Recordation Act, 1970 PA 74, outlines when a Land Corner Recordation Certificate must be filed. In order to formalize the local practice, the county must define “as described.”
- C. A peer review group. MCL 54.268 (e)
  - i. Qualifications for peer review group membership must be defined.
  - ii. Safeguards can be defined to avoid one-company rule.
  - iii. Allowance of walk-in corner review must be identified.
- D. Geodetic coordinates to be collected. MCL 54.268 (2)(a)(iii)
  - i. Geodetic coordinates are not defined by the law. Some counties want to use State Plane Coordinates as defined in 1964 PA 9, and others want to use latitude and longitude. The county can decide which to use, but it must be consistent and documented.
  - ii. The storage of coordinate values must be addressed at the county level.
- E. Agreements for active geodetic control sites. MCL 54.268 (7)
- F. LCRC forms must be recorded at the county Register of Deeds and with the Department. MCL 54.268 (2)(b). This has not changed.

It is the intent of the Revision to review the Remonumentation Plan, assess its validity and modify for recent technologies. As shown in the outline, decisions must be made and formalized in the Revised County Plan to assure local control and consistency. Additions to this Revision can be made if a county would like to modify a section.

According to Section 8 (1), the deadline to file the Revised County Plan is **March 1, 2020**.

**Appendix AA**  
**Detailed County Remonumentation Plan**

4054 corners have been Identified as being included with the program.  
Through 2019, 3063 corners or about 75% have been completed.

Following is a list of all corners included in the County Plan that have been done or need to be done. Each Town & Range is identified.

**APPENDIX BB**  
**PERPETUAL MONUMENT MAINTENANCE PLAN**

Upon entering maintenance, corners will be revisited based on the year it was originally remonumented (oldest first), unless specific corners have been identified as having been removed for various reasons, or newly acquired information had determined that a corner's remonumented position may be in question. It is anticipated that the corner list selected in Appendix AA may not be a complete listing of all desirable points to be reviewed by this program. New evidence or conditions that were not anticipated at this time may uncover additional points desired for review under this program. Once the program has entered this "maintence" phase, these other desirable positions may be added / reviewed as may be come known.

"As described" will be defined as the monument exists as previously stated with at least 3 existing witnesses, unless otherwise defined.

A Land Corner Recordation Certificate (LCRC) does not need to be filed with geodetic coordinates if all the following conditions are met:

- The monument exists as previously stated.
- At least 3 existing witnesses remain.
- No additional information has been found to refute the location
- Less than 25 years have elapsed since the previous LCRC's recording

Geodetic coordinates will still be obtained or checked during the revisit and provided to the county program to update / maintain the database until at least 3 previous location observations / separate year visits agree at which point this requirement can be re-evaluated.

Once in the maintenance phase of the program, the peer review group need not review every corner and fewer meetings are likely. However, there shall be a minimum of 1 meeting per year. Corners that have new evidence conflicting a corners position shall be reviewed. The group will also discuss procedures, progress, and review any corners which the County Representative has identified as desirable for review (which may include corners which have been obliterated and where review of the reestablishment procedure is desired).

## APPENDIX CC

### PEER REVIEW GROUP

The county peer review group will include only Professional Surveyors licensed in the State of Michigan. The peer review group must have at least three members. The County Representative is the chair of the peer review group. The peer review group members are recommended by the County Representative, selected by the County Administrator and are approved by the County Board of Commissioners (reviewed annually). A firm may choose to have multiple Professional Surveyors listed as alternate peer group members, however, surveyors from the same firm share one vote, and share one fee for the meeting. It is important that peer group members attend the meetings (at least one per firm). Occasional missing of a meeting will happen, but consistent lack of attendance will be grounds for dismissal from the group at the County Representatives discretion and may put at risk their respective firms "contract surveyor" status which will also be at the County Representatives discretion (appeal of this decision can be made to the County Administrator and the County Board of Commissioners). Prospective persons desiring to become members of the peer review group should consult with the County Representative and it is recommended that they attend meeting(s) as members of the public (not compensated) in the prior grant year to learn the expectations of the role and show desire to become part of the group.

While the named peer group person(s) are the voting group members, companies / firms are the entities that conduct the remonumentation process of a corner. These are known as "contract surveyors" and it is important that these "contract surveyors" are familiar with the expectations and processes of the peer group. For this reason and until amended, "contract surveyors" for the remonumentation program (Allegan County) are to be the firms that have a representative as a member of the peer review group. The peer group relies heavily on the information found / observed during the remonumentation process. If a surveyor who prepared the LCRC cannot present the corner to the peer review group, the presentation can be delegated to the crew chief or other Professional Surveyor who actively participated in preparing the document (but should not be someone who has no knowledge of the corner or the process used to determine the proper location of the corner). "Contract surveyors" who are members of the peer review group cannot vote on corners they present.

If the county representative is also the county administrator for the program, that individual and that individual's organization shall not be a "contract surveyor" within the borders established by the county plan.

Walk-in corners from any Professional Surveyor in the State of Michigan are acceptable. No fee will be paid for walk-in corners, but enough material to complete the Remonumentation of the corner will be provided and the recording fee will be covered within the remonumentation program. A copy of all research materials and the LCRC will be necessary to complete the "walk-in".

## **APPENDIX DD** **GEODETIC COORDINATES**

Unless specifically changed:

- Geodetic coordinates reported will be in decimal degrees for Latitude and Longitude.
- Accuracy of the coordinate will be within 1.0 feet.
- A database will be maintained by the County Representative.
- It should be noted that geodetic coordinates are defined differently by different jurisdictions. Even Latitude and Longitude can be misleading without the confines of a certain datum and date of observation. Use extreme caution when using these absolute coordinates and they are to be used in a context of their accuracy and reliability. It is not recommended to replace a corner based upon it's geodetic coordinate alone. If a question of position arises, the distance from a witness will be weighted as more accurate than a geodetic coordinate. Also, relative distances from nearby known corner points (which, if not on the LCRC, maybe found from surveys within the corner's remon research packet) would likely be better evidence as to the corners position.
- Lack of geodetic coordinates shall not be reason for recording a new LCRC during maintenance phase.

## **APPENDIX EE** **AGREEMENTS FOR ACTIVE GEODETIC CONTROL SITES**

No agreements between the County and MDOT for the maintenance of Continually Operating Reference Sites (CORS) exist.

## **APPENDIX FF** **COUNTY REVISIONS TO THE REMONUMENTATION PLAN**

Specifically amended from the 1992 Allegan County Remonumentation plan is Section VIII: Geodetic Densification & Maintenance Program. NOAA / NGS geodetic markers are not part of the program and geodetic coordinates will be obtained as stated in Appendix DD above.

Where conflicts exist the 2020 Revised County Plan will supersede the original 1992 Allegan County Remonumentation plan.
