

Aerosol Cans

Aerosol cans are used to deliver cooking sprays, degreasing materials, lubricating materials, and medications. They often contain materials that are ignitable, corrosive, and toxic. When compacted, aerosol cans also present an explosion hazard.

Household hazardous waste collections occur three times annually, for details visit allegancounty.org/health/recycling-program or contact (269) 686-4559 for an appointment.

If possible, use it up.

Donate it to a friend or community organization. As long as it is in good condition.
