

Materials that can be composted

GREENS

Egg shells, fruit & vegetable scraps

Grass, weed & plant clippings

Coffee grounds, filters & tea bags

Manure (not dog or cat)

BROWNS

Dried leaves & twigs

Straw & Hay

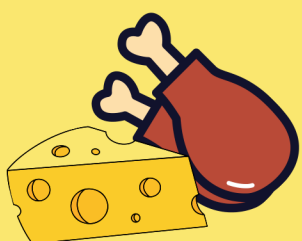

Pine needles & pine cones

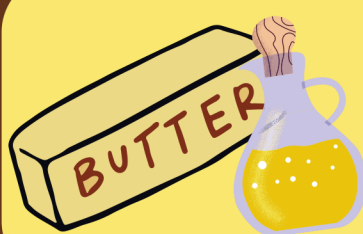

Wood chips, tree bark & sawdust

Caution

Meat & Dairy cause odor problems and attract pests.

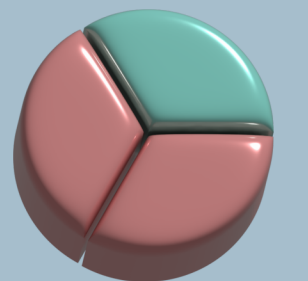

Fats, grease, & oils cause odor problems and attract pests.

Diseased plants, black walnuts & chemicals can contaminate compost.

Tips

Layer 2/3 browns and 1/3 greens

Too many greens = STINKY, Cover greens with browns

Moisture helps compost breakdown
